# ABOUT US

PT. Batara Prima Teknologi (BPT) is a trusted leader in the information technology sector, committed to delivering innovative and comprehensive solutions to meet the diverse needs of our clients. Specializing in infrastructure, server technology, storage systems, networking, software licensing, maintenance, installation, and managed services, we provide tailored support to empower businesses in achieving their goals.

At BPT, synergy and integrity form the foundation of our operations. These principles enable us to collaborate effectively and deliver reliable, client-focused IT solutions that turn visions into reality. With a dedication to excellence and a forward-thinking approach, we are here to shape the future of your technology landscape.

# VISION

To become a trusted and leading provider of information technology in Indonesia and the region in order to anticipate the rapid advancement of technology in the future.

# MISSION

To realize efficient, effective digital transformation, innovative added value and service excellence to our customers and business partners.

# CORE VALUE

## **Integrity**

We uphold unwavering consistency in actions aligned with moral, ethical, and legal standards, demonstrating a steadfast commitment to preserving and promoting these principles in every aspect of our work.

## **Professionalism**

Our actions, attitudes, and behaviors reflect a dedication to excellence through superior knowledge, competencies, and continuously evolving skills. This commitment empowers us to address challenges effectively and drive the company's success.

## **Entrepreneurship**

We embody a dynamic and enterprising spirit, fueled by a passion for continuous improvement. With the courage to transform innovative ideas into reality, we embrace bold initiatives, learn from failures, and nurture harmonious relationships with stakeholders to achieve shared success.
