

COMPANY PROFILE

PT BATARA PRIMA TEKNOLOGI

PT. Batara Prima Teknologi (BPT) is a company engaged in the field of information and technology. Our main goal is to help and provide solutions to customer needs, especially in the areas of infrastructure, server technology, storage, networking, software licensing, maintenance, installation and managed services. Synergy and integrity are important parts of our company so that we are able to realize customer desires for the information technology needs that we want to implement.

Vision

To become a trusted and leading provider of information technology in Indonesia and the region in order to anticipate the rapid advancement of technology in the future.

Mission

To realize efficient, effective digital transformation, innovative added value and service excellence to our customers and business partners.
